**Kid's
Kompany
Theater**

The Kid's Kompany
adventure into the
"World of Theater"
will be an unforgettable
experience for all who
dare to enter.

Kid's Kompany Summer Theater is a day camp designed to fulfill the dreams of children, as well as their parents. In our theater workshop, your child will not only enjoy the magic of acting, but will gain self-awareness and communication skills that promote high self-esteem. In today's fast-paced society, it is difficult to find the time for our children to experience a wide variety of extra-curricular activities. Kid's Kompany is proud to offer this "Fine Arts" program for two separate one week long sessions. We feel that your child's deep developmental experiences during these formative years will provide a base on which their well-rounded life can evolve. Improving communication skills, self-esteem, self-awareness, and strengthening their ability to work well with others are only a few attributes that our "kids" develop. This all seems to happen while the "kids" are having a super time learning lines, painting scenery, creating costumes and stretching their imaginations beyond belief!
